THE DONS ACCEPT

Uncle Sam's Terms Ending the Cruel War.

The Suspense Has Been Broken by The Spanish Cabinet.

MADRID, Aug. 6.--Special.--The expected has happened and Spain's reply has been received accepting the American peace conditions.

The Cabinet is in session now considering the details.

Madrid, Aug. 6.—(Special.)—The conclusions of the Spanish cabinet accepting the American peace proposition are in the hands of the Queen Regent. She will approve the acceptance and it will be forwarded to Washington.

Washington, Aug. 6, 3 p. m.—(Special.)—Spain's answer to the peace proposition is momentarily expected. Any delay will accrue the loss of Spain.

Hurrying Them Home==

Transports for Twelve Thousand.

Washington, Aug. 6.—(Special.)—The War Department has ordered the largest fleet of transports at Ponce to proceed to Santiago, there to join with the transports already at Santiago in bringing Gen. Shafter's army back to this country. There are ten large transports in the fleet at Ponce, some of them, like the Mobile, having a capacity of 1,000 men. In all they have a capacity of 6,540 men. This, with the capacity of the ships already at Santiago, will give a carrying strength of over 12,000 men at a trip. In addition to the transports announced by the War Department yesterday as being ready at Santiago, it now appears that the Orizaba, capacity 650 men, is also available. The Yale will also be brought into this service in the course of a week or ten days. At present she is to be utilized in taking Gen. Fred Grant's brigade to Porto Rico, after which she will return by way of Santiago and take on a load of Shafter's men.

Dissensions at the Front==

Several Officers Resign.

Boston, Mass., Aug. 6.—(Special.)—A special cablegram to the Journal from Ponce, Puerto Rico, says:

"A tremendous sensation has occurred in the 6th Massachusetts regiment, which is in Gen. Garretson's brigade. The friction between the line officers and the officers of the brigade, which has been growing ever since the command left Cuba, reached its climax Monday, when Col. Woodward, Lieut. Col. Chaffin, Maj. Taylor, Chaplain Dousseault and Capt. Otwell of company K resigned their commissions.

"The exact reason which prompted them to take this action is not at present known. The resignations leave Maj. Charles K. Darling in command of the regiment. The matter has been fully reported to Gen. Miles, and a rigid investigation has been ordered. By military law to resign in the face of the enemy means a courtmartial."

Taking Her Time to Answer.

Spain is Not in Any Hurry.

Washington, Aug. 6.—(Special.)—Spain's apparent delay in formally accepting the terms proposed by the United States as conditions for ending the war is causing no concern to the officials of the Administration. The delay is in no sense unexpected. When the second note was presented to Ambassador Cambon on Wednesday, in reply to the one of inquiry as to details, the Ambassador stated that several days would elapse before a final answer could be expected from Spain.

Wrangling at Washington.

Roosevelt Stirred Them Up.

Washington, Aug. 6.—(Special.)—Gen. Corbin says the soldiers in Cuba are enervated by home sickness.

Roosevelt's letter demanding the recall of the troops has been a veritable firebrand. Secretary Alger is charged with allowing politics to control the movement of troops. Congress may investigate these and other charges.

Puritan Wants the Job

of Taking San Juan.

Port of Ponce, Aug. 6.—(Special.)—The captain of the Monitor Puritan has offered to engage the batteries of San Juan with the big guns of his vessel alone. He believes he could capture the city all by himself. The navy is urging the acceptance of this offer, as it wishes to have the honor of taking San Juan without the aid of the army.

Our Big Standing Army

Will Garrison the Colonies.

Washington, Aug. 6.—(Special.)—State troops are still organizing under the President's second call. Notwithstanding the peace probabilities, it will require 100,000 men to garrison the captured colonies. Manila continues the point of danger.

More Troops for Manila.

San Francisco, Aug. 6.—(Special.)—The transport Arizona with the 51st Iowa Volunteers will soon sail for Manila. Brig. Gen. King commands the expedition.

POWDER AND MATCH.

Sudden Mixture Severely Burns a Young Lady.

Guthrie, Aug. 6.—(Special.)—Miss Emma Lester was seriously injured while engaged in cleaning a bureau drawer. There was powder in the drawer which was ignited by a match she had in her hand. Her face was badly powder burned, but it is not thought that she will be disfigured.

WILL BUILD ON SOUTH MAIN.

Mr. Geo. E. Gary Purchases a Nice Building Lot.

The handsome building lot on South Main street owned by Mrs. Mary Thomas has been sold to Mr. Geo. E. Gary, who will build one of the finest residences in the city, beginning early in the fall. This lot is 80 by 300 feet, well located and beautifully set in shade trees. Mr. Gary is now preparing the plans for his house.

MILES' PICNIC.

The Reasons for That Army of 40,000.

More Politics Than Anything Else in the Porto Rican Invasion.

Washington, D. C., Aug. 6.—(Special.)—The expedition which is being sent to Porto Rico under the command of Gen. Wade is more for political than military purposes. The men are not expected to do any fighting, but to enjoy the experience of a campaign. It is to gratify the pride and demonstrate the powers of a lot of volunteers who are eager for active service and do not want to disband until they have left their footprints in the soil of the enemy's country. Their friends in Congress declare that it will not do to send them home without seeing some active service, hence eighteen regiments from as many States that have had no representation in the army before Santiago are to be sent on an excursion of 1,200 miles, ostensibly to re-enforce Gen. Miles, but in reality to give them an excuse to assure posterity that they were real soldiers. Miles already has 9,000 men in Porto Rico, 4,700 more should have arrived there yesterday, which, with Gen. Wade's command, will give him an army of 40,000 to conquer an island where the Spaniards have never had a larger garrison than 9,000, and where there has not been, and is not likely to be, any resistance. Nor does anyone in the cabinet or any official authority in Washington doubt that Spain will accept the treaty of peace before Gen. Wade's troops have embarked. But that will make no difference. They are bound to go anyhow. It is estimated that it will cost not less than \$15,000,000 to send these eighteen regiments to Porto Rico, support them there six months and bring them back again, which makes it rather an expensive picnic.

THE ELECTION BOARDS.

Republicans Have Been Selected on the Commissions.

Frankfort, Ky., Aug. 6.—It was stated here this morning that should the Republicans be selected as County Commissioners by the State Election Board fail to accept, Democrats will be selected to fill the places. A politician close to the board in speaking of the matter said:

"The Republicans have been given places on the County Commissions, and if their representatives fail to accept it is no fault of the board, and it may select Democrats to fill the vacancies."

CROFTON'S SICK.

Two Prominent Men Dangerously Sick.

Crofton, Ky., Aug. 5.—(Special.)—Edgar Brown, a son of Postmaster Brown, is very ill with typhoid fever. Yesterday evening he was thought to be dying, but rallied and is slightly better this morning. His recovery is very doubtful.

W. L. Gibson, a prominent farmer near here, is dangerously ill with dropsy.

NEW POSTMASTER.

Esq. H. B. Brown Succeeds Mr. W. H. Martin.

Crofton, Ky., Aug. 6.—(Special.)—The new postmaster Esq. M. B. Brown has formally taken charge of the postoffice, succeeding Mr. W. A. Martin. For the present it will remain in Mr. Martin's house of business but may shortly be removed to the Boyd storehouse, South of the Crofton House.

PETIT SKIPS.

An Investing Agent Leaves a Big Suit Behind.

Excitement Follows the Disappearance of Millionaire Pettit.

New York, Aug. 6.—(Special.)—John Pettit, a multi-millionaire, has disappeared from this city. Pettit was investing agent of Queen Victoria in this country. Suit is now pending against him in the Supreme Court for \$75,000,000. Great excitement has followed his disappearance, in the financial world.

CUTTING SCRAPE.

Another Blood-Letting Near Bennetts town To-Day.

Thomas Quarles Cut in a Dozen Place By Miles McKnight.

Bennetts town, Ky., Aug. 6.—(Special.)—Miles McKnight and Tom Quarles had a row at the Cooper place this morning and McKnight cut Quarles in the back, on the head, in the face and on the arms. He was cut in a dozen places, but only two of the cuts are deep or dangerous. The others are small wounds done with a pocket knife. Both are negroes.

DEMOCRATIC TICKET.

FOR CONGRESS,
HENRY D. ALLEN,
OF UNION COUNTY.

Col. Roosevelt is in danger of shedding too much ink.

Gen. Blanco has suspended the sittings of the insular chamber at Havana.

It is not necessarily disrespectful now to speak of Spain's measly little King.

The peace negotiations are still hanging fire at Madrid, unless something is done to-day.

Madrid is having a very gay summer season and the prospect of peace has caused all securities to rise several points.

The Spanish soldiers at Santiago are eager to start back to Spain. They keep day and night watch for the expected transports to take them home.

The real heroes of the war are the "immunes" who are to be sent into the jaws of death in a loathsome form, to take the places of men driven out by epidemics.

The Fulton Leader has bought the Fultonian Democrat and Mott Ayers is in charge of the consolidated papers. By the way, his war daily is still running with a full head of steam.

Sampson has again been pushed to the front at the expense of both Schley and Watson and put in command of the Eastern squadron that may be sent to reinforce Dewey.

Gen. Ortega, the commander of the Spanish forces in Porto Rico, has the reputation of being a great fighter. He is now at Alibonito, but Gen. Brooke with 3,000 men is marching to get between him and San Juan, while Gen. Miles is gradually closing in from the direction of Ponce.

Christian and Union counties have held conventions and each instructed for Mr. Fowler. He only lacks thirty more votes out of the remaining 116 and his nomination as a Republican candidate for Congress is assured. Webster and Henderson counties will hold conventions Aug. 20.—Hawesville Clarion.

Another landing place in Porto Rico has been seized, this time at the northeastern corner of the island. Marines landed from the Puian, the Amphitrite and the Montgomery at Cape San Juan, near Pajardo, and seized the lighthouse, running up the American flag. No resistance was offered, and it is believed the Spaniards have abandoned the Pajardo battery.

Teddy Roosevelt did a very foolish thing the other day and was promptly rebuked for it. He wrote a gossipy letter to Secretary Alger asking that his rough riders be sent to Porto Rico, saying they were "as good as any regulars and three times as good as any State troops." The Secretary cabled a reply saying to Teddy, "I suggest that unless you want to spoil the effects and glory of your victory you make no invidious comparisons. The rough riders are no better than other volunteers. They had an advantage in their arms for which they ought to be very thankful."

Many of the men prominent in the cabinet and in the army and navy are church members. Secretary Gago, Secretary Alger, Postmaster General Smith, Secretary Wilson, Vice President Hobart, Admiral Sampson, Capt. Clark and Admiral Sigsbee are Presbyterians. President McKinley, Secretary Day and Gen. Corbin are Methodists. Attorney General Griggs, Admiral Dewey, Commodore Schley, Capt. Mahan and Capt. Crowninshield are Episcopalians. Secretary Bliss and Capt. Philip are Congregationalists. Secretary Long is a Unitarian and Gen. Miles is a Baptist.

OCEAN BATHERS.

Provisions For Saving the Drowning People.

Some Figures About the Number Who Bathe in the Surf.

Atlantic City, Aug. 6.—(Special.)—A squad of twenty brave men with red shirts and long blue knitted trunks patrols the beach of Atlantic City to rescue the drowning, and during the bathing hours of the day, from 10:30 o'clock in the morning until 11, they are busy. Scarcely a day passes without the saving of some reckless fool from a watery grave, and on Saturdays and Sundays, when the big excursions come down from Philadelphia and other towns in the State, the list of the rescued often runs up to thirty or forty. On those days most of the people who are saved from their own folly are men who have been drinking, "hayseeds," who are ignorant of the peculiarities of the ocean, or young men who think they are fine swimmers and want to "show off." Each of the beach patrolmen has a lifeboat, and during the bathing hours usually rides in it, just outside the breakers, where he can see up and down his beat, and row immediately to the relief of the drowning. Last year over 700 people were rescued by these twenty men, and only six were drowned among all the millions that bathed at Atlantic City.

The average number of bathers on week days during the season is about 10,000. On Saturday the number runs up to 25,000 and 30,000, and on Sundays as high as 50,000 and 60,000. There are over 25,000 bathing suits for hire at the bath houses along the board walk, without counting the private suits that belong to the cottagers and the guests at the hotels. Some of these suits are used twice and some three times a day. As fast as they are discarded by one set of customers they are thrown into tubs of boiling water, wrung out and passed through the drying rooms where in half an hour they are ready to be used again. Some of the bathing houses have as many as 2,000 suits, and last Sunday one of them accommodated over 5,400 patrons. There is no place where so many people bathe in the sea during the course of the year as at Atlantic City. The number at Manhattan Beach and Coney Island may run up to higher figure on special days, but the average at Atlantic City will surpass that of any summer resort in the world.

RELIABILITY

Is a quality some newspapers have lost sight of in these days of "Yellow Journalism." They care little for the truth and a great deal for temporary sensation.

It is not with THE DISPATCH. The success of THE DISPATCH rests upon its reliability. It prints the news—all of the news—and tells the truth about it.

ITS WAR NEWS SERVICE

Can not be excelled. It is gathered by forty-two war correspondents and eight fast dispatch boats at the seat of war, and a salaried correspondent in every important city in the world.

The most critical period of the war will be during peace negotiations. Get the paper that tells the truth. Our Motto: If you see it in THE DISPATCH it's so, and if it's not it's always in THE DISPATCH.

THE DISPATCH news service is now furnished by the New York Sun. The Chicago Inter Ocean, The Northern Press Association, The Leslie Syndicate and a staff of correspondents in Kentucky, Tennessee and Indiana send to none on a Southern newspaper.

We club with The Weekly Louisville Dispatch; both papers one year for the low sum of \$2.00.

An Old Adage Reads:

"There is a place for every thing." Now for everything to be in its place the Louisville Dispatch should be in the home of every Democrat in the South. The Louisville Dispatch is the people's paper, owned by the people and read by the people. The Louisville Dispatch is the only Democratic paper published in Louisville. It stands squarely on the Chicago platform. It is not only a flourishing condition after eighteen months' battling against adverse circumstances, but it is the best newspaper in the South. And its motto is: "If you see it in the Dispatch it's so; if it's not it's always in the Dispatch." It has been fully verified during the American Spanish War, during which the superiority of its news service has been daily apparent.

The Dispatch news service is furnished by the New York Sun, the Chicago Inter Ocean, the Northern Press Association and the Leslie Syndicate, which an active salaried correspondent in every important city in the world, besides its own staff of over 300 correspondents in Kentucky, Tennessee and Indiana. Get The Dispatch. It gives the news, and it tells the truth about it.

The Dispatch is Kentucky's greatest paper. You should be a reader. For the most free reading material obtainable, the Weekly Dispatch at the extremely low price \$2.00.

FRISKY MOTHER-IN-LAW.

Develops a Plania for Kissing at a Wedding.

Elizabethtown, Ky., Aug. 6.—(Special).—Miss Barbara Hall Daugherty, of this place, was married last evening to Mr. Thomas John DeWitt by Magistrate Quince W. Johnson in the office of County Clerk before a large and interested crowd.

When the gallant Squire had reached the middle of the best ceremony Mrs. Laura Daugherty, mother to the bride, made a rush for him, threw herself upon his breast and kissed him squarely in the mouth. Amid shouts and laughter the Magistrate thrust aside his embarrassment and concluded the ceremony.

Albert Hamilton, a liverman, procured his best and handsomest carriage, handed the happy couple and the newly made mother-in-law into its capacious depth. While the carriage, with its prancing bays, was driven around the public square, the newly made mother-in-law espied Squire Johnson standing on the court house steps gazing in the distance with a far away look in his blue-gray eyes. She had the driver stop the horses and shouted to the Squire to come to her. Thinking she intended to pay him for uniting her precious and tender darling to a big, rough man, the innocent Squire complied. Instead of giving him money, she tried to kiss him again, though by ducking and side-stepping, he avoided her and made a hasty retreat to the cover of his own roof.

The Oath Taken by Porto Ricans.

Ponce, Porto Rico, August 6.—(Special).—The oath taken by officials of Porto Rican towns was framed and administered by Col. Clous, the judge advocate of Gen. Miles' staff.

This is the first time in history of the United States that the judges of a foreign and hostile but conquered country have sworn to support the Constitution of the United States. The oath follows:

"I declare, under oath, that during the occupation of the Island of Porto Rico by the United States I will renounce and abjure all allegiance and fidelity to every foreign prince, potentate, state or sovereignty, particularly the Queen Regent and the King of Spain, and will support the Constitution of the United States against all enemies, foreign or domestic, and will bear true faith and allegiance to the same."

"Further, I will faithfully support the Government of the United States established by the military authorities in the Island of Porto Rico, and yield obedience to the same, and take the obligation freely, without mental reservation or with the purpose of evasion, so help me God."

Another Bank Robbery.

Richland, Mich., Aug. 6.—One of the most daring and successful bank robberies ever perpetrated in Michigan was carried out by six robbers. Some of them came from east on a hand-car, and evidently had confederates with a horse and carriage. They secured about \$5,000 in cash from the Union Bank and \$4,600 in notes. The horse and carriage were taken into Augusta and left there. There were three explosions, which awakened many people.

THE LADRONES.

Interesting Information Concerning This Group of Islands.

The Ladrones group, whose industries have been blighted by Spanish rule, comprises about 20 islands, only five or six of which are inhabited, the rest being mere dots on the ocean, the tips of volcanoes which have sunk, the north sea as the crust of the earth at this point subsided. The principal islands of the group are Guahan, Rota, Agaña, Sayan and Tinian, but the largest, Guahan, which has an area of only 200 square miles, forms nearly one-half the land area of the entire group. Lying as they do, almost directly under the equator, they have every variety of tropical product and under proper conditions their population might become wealthy from agriculture alone, for no finer cotton, coffee, sugar, nor tobacco, can be grown in the world than are raised in the Ladrones islands. The people labor no more than they are obliged to, and in the tropics no one is really compelled to work, for an abundant supply of food grows without cultivation, and clothing and shelter are almost unnecessary.

The present islanders are mostly descendants of settlers from Mexico or from the Philippine islands. The people do not differ materially from the natives of the Philippines and although the islands have several good harbors the Spaniards have done little or nothing for their improvement. The most considerable town on any of the group is Sayan, on the island of the same name, the houses of which, like most of those in the South Sea islands, are elevated on piles from two to four feet above the ground. There are few Spanish settlers on the islands and the hold of Spain upon the group has been for the most part nominal.

It is a singular fact, discovered by Anson, that there are evidences on several of the islands of a former civilization. Cyclopean ruins exist, the architecture and dimensions of the stones closely resembling the great ruins found in the island of the Greek archipelago. These lonely isles must therefore, at one time, have been a seat of civilization. Perhaps it was before they became islands, for the Ladrones islands are the remains of a mountain chain, which traverses the Pacific from north to south, having branches to the east in other scattered groups which here and there dot the surface of the sea.

In the United States the value of the islands is at present principally military, as furnishing harbors and coaling stations, but under an enlightened government there seems no reason to doubt that with proper cultivation the cotton of the islands would equal that produced along the coast of South Carolina, the sugar would rival that of Cuba and Puerto Rico, and it is said, that the tobacco of the Ladrones has a flavor equal to that of Vuelta Abajo valley. Any developments within limits of climate and soil is possible under civilized government, and the Ladrones may have before them a future as great as that which lies before Puerto Rico.

The islands were discovered by Ferdinand Magellan on March 6, 1521. He named them Ladrones, or Thieves' islands. Not long after Magellan perished in a fight which he and his men provoked with the Philippine islanders. Of his five ships, only one, with 18 men, returned to Spain and many years elapsed ere any attempts were made to occupy the islands which he had discovered. Towards the end of the seventeenth century, a military expedition from Mexico took possession of the islands and renamed them the Mariana group. The natives at that time numbered at least 40,000, some estimates placing the population as high as 60,000, but following their usual custom elsewhere, the Spaniards soon exterminated almost the entire population.—Milwaukee Sentinel.

A MINISTER'S EIGHT RULES.

They Will Insure the Success of His Church and Pastoral Work.

Mrs. Lyman Abbott, in Ladies' Home Journal, lays down eight rules that are essential to a minister's successful church and pastoral work. These she has the minister himself proclaim:

1. I must be always ready to call when invited.

2. Must catch at every straw of an errand to take me to one of my people.
